Let’s Meet the Pin Oak

Tree: Pin Oak (Deciduous)

Did you know that a Pin Oak tree...
* can grow to be 40-55 feet tall
* is shaped like a pyramid
* is a very popular tree that is used for shade
* has leaves that are rusty orange to red in the fall
* has leaves that have 6-8 sharp points
* has many acorns
* was named ‘Pin Oak’ because the wood was cut into pins or pegs to fasten the framework of buildings

Materials:
* Pin Oak Bingo card
* Acorns

Seedling Activity
* Have you ever played BINGO? We are going to use words that describe the Pin Oak tree and play Tree BINGO!
* The acorns I have collected for you are going to be your markers
* On the BINGO board there is a letter in each box. The letters are the first letter of a word I will read.
* I will read a word then I will ask you what letter the word starts with.
* Once you know the letter the word starts with you will look on your BINGO board to see if you have the letter. If you have the letter then you put one of your acorns on it. I will also look to see if I have the letter on my BINGO board.
* The first person to get 5 in a row vertical, diagonal, or horizontal wins!
