15% discount on photo prints. [View offer](#)

The wonderful view of the natural ecosystems of the entire planet condensed in the best pictures of professional photographers and advanced photo amateurs.

This is a different and unique photographic competition launched by *BioArt visual* association, that helps us know and preserve the rich beauty of the Biomes through some chapters that describe landscapes, animals, plants, insects, colours and shapes seen and told with a special eye and feeling. The images, through the creativity and the skill of advanced and professional international photographers, illustrate the theme of this fifth edition: the great ecosystem of **PRAIRIES, STEPPES AND SAVANNAH** of the planet Earth.

5° BIOPHOTOCONTEST - "Prairies, Steppes and Savannah"

Winner Ceremony: September 29, 2018

5° BIOPHOTO FESTIVAL

Budoia (PN) September, 27 th to 30th 2018
