

BIRDS OF VERMONT MUSEUM

where natural history meets art

ART SHOWS

2019 Art Exhibit: *Pollinate This!*

art inspiring seeds of conservation

We wander in gardens, foster habitats, explore ecosystems. Life buzzes, entwines, fosters and interacts—one species to another and another and another. Birds and insects and plants thrive together.

Can we pause, notice? Can we let the outside in, become as intimately connected to the world as a pollinated plant is to its pollinators?

Visit our 2019 art exhibit, *Pollinate This!*, and discover how 34 Vermont artists and photographers answer these questions in their work.
